Re: Final Closure Plan Approval for
Big Woods Auto
Cedar Falls, Iowa
EPA ID No. IAD981711948
Docket No. VII-88-H-0013

Dear Mr. Cunningham:

The closure plan tentatively approved by the Environmental Protection Agency (EPA) on June 18, 1992 for the above referenced facility was made available for public comment from June 30, 1992 through July 30, 1992. EPA did not receive any comments on the closure plan during the comment period.

This letter is to notify you of final approval of the closure plan for your facility's hazardous waste management unit (one hazardous waste container storage unit). The closure plan dated February 1989, and the modifications dated June 1992, comprise the approved closure plan. As of the date of this approval letter, the closure schedule specified in the plan is effective. As specified in the approved closure plan, Big Woods Auto must provide EPA Region VII at least thirty (30) days prior written notice of the date(s) on which the sampling to verify clean closure will be performed so that the Agency can arrange to have an EPA employee or representative on-site to observe the sampling and obtain split or duplicate samples, if necessary.

In accordance with Title 40 Code of Federal Regulations (CFR) § 264.115, within sixty (60) days of completion of the activities specified in the approved closure plan, the owner/operator and an independent, registered professional engineer must provide to the EPA the required certifications that all closure activities have been performed in accordance with the
